

## WORKSHOP LATVIA

1. All participants are given A4 format sheets of paper, which following instructions of the Workshop leader are folded in a certain sequence, and corners are torn off. All participants perform identical actions, but each person's result is different. This exercise demonstrates how different we are.

2. All participants have to divide into teams – 5-6 people in each. Each team is given A4 format sheets of paper. Task – all team members have to stand on these sheets. Gradually, these sheets are taken away one by one, and finally only one sheet of paper is left, on which everyone has to stand. This exercise demonstrates in how many different ways people can work in a team.
